100V Input Signal Extender (For Long Distance Signal Transmission)

T-6241

Features

* Rack mounted design in 1U height.

* It is used to receive 100V signal from remote amplifier and feed into local PA system to make sure these 2 systems to enjoy the same sources.

* 100V line input 3 aux outputs: 0.7V, 1V, 2V to feed into local PA system's mixer or pre amplifier.

* Ideal for more than 1Km sound system interface and amplification.

Specifications

Model	T-6241
Power Input	≥100V constant voltage. Two screw-nut terminals
Audio Output	≥1.2V, 1V, 0.7V, 6.35mm jacks
Output Voltage	DC24V/1A, 230V/50Hz/2A
Frequency Response	80Hz~16KHz(±2dB)
Power Supply	~110V-230V 50/60Hz
Dimension	484 x 209 x 44mm
Weight	3.42Kg

Rear Panel
